**Re: ET Docket No. 98-206, Amendment of Parts 2 and 25 of the Commission's  
Rules to Permit Operation of NGSO FSS Systems Co-Frequency with GSO  
and Terrestrial Systems in the Ku-Band Frequency Range  
*Ex Parte Communication***

Dear Mr. Caton:

On February 12, 2002, I filed an ex parte statement in this docket on behalf of the Fixed Wireless Communications Coalition (FWCC).

I am writing to inform the Commission that Motorola Inc. and BellSouth Corporation do not support the FWCC filing of February 12, and their names should be removed.

AT&T does support the filing, and its name should be added.

Moreover, in response to a recent filing\* and other inquiries, the FWCC reiterates that our *sole request* is for the Commission to refrain from taking action in the docket that would foreclose point-to-point operation at 12.2-12.7 GHz. We do not request action on any proposal. We do not advance any new position on any other issue in the docket. We do not request any measures that could promote delay.
