

Before the
Federal Communications Commission
Washington DC 20554

In the Matter of)
)
Amendment of Parts 2 and 101 of the) RM-11605
Commission's Rules To Provide for Federal)
and non-Federal Sharing in the 7125-8500)
MHz Band)

**COMMENTS OF THE
FIXED WIRELESS COMMUNICATIONS COALITION**

Pursuant to Section 1.405(a) of the Commission's Rules, the Fixed Wireless Communications Coalition (FWCC)¹ files this comment in support of the above-captioned rulemaking petition.²

The FWCC is the original proponent of this rulemaking. We asked the Commission to launch a rulemaking, in collaboration with NTIA, to permit shared non-Federal fixed use in the 7125-8500 MHz band, particularly for wireless broadband backhaul. We explained this spectrum is needed to satisfy the demand for backhaul to serve the coming expansion of mobile broadband.

¹ The FWCC is a coalition of companies, associations, and individuals interested in the fixed service – i.e., in terrestrial fixed microwave communications. Our membership includes manufacturers of microwave equipment, licensees of terrestrial fixed microwave systems and their associations, and communications service providers and their associations. The membership also includes railroads, public utilities, petroleum and pipeline entities, public safety agencies, cable TV and private cable providers, backhaul providers, and/or their respective associations, communications carriers, and telecommunications attorneys and engineers. Our members build, install, and use both licensed and unlicensed point-to-point, point-to-multipoint, and other fixed wireless systems, in frequency bands from 900 MHz to 95 GHz. For more information, see www.fwcc.us.

² *Consumer & Governmental Affairs Bureau Reference Information Center Petition for Rulemakings Filed*, Report No. 2908 (released June 4, 2010).

We file this comment to note that President Obama recently asked the Commission for a specific plan and timetable for identifying and making available 500 MHz for both mobile and fixed wireless broadband use.³

The coming availability of this spectrum will accelerate the need for backhaul capacity, and accordingly will add to the urgency of the present rulemaking. We ask the Commission to release a Notice of Proposed Rulemaking as quickly as possible.

Respectfully submitted,

Mitchell Lazarus
